

ABILITIES PATHWAY MATHEMATICS ACADEMY

UNDERSTANDING MATHEMATICS IS THE KEY TO SUCCESS!

The number one reason that students give for having trouble in mathematics is that they do not understand it. Hence, they become frustrated and convinced that it is simply too difficult for them to master.

THE FACT IS: Mathematics must be clearly explained in a way which enables each individual student to fully understand each concept.

With large classroom sizes through grades 4 to 12, a large curriculum in grades 9 through 12 and a short period of time per secondary semester, it is extremely difficult for educators to dedicate the time many students require.

ABILITIES PATHWAY—MATHEMATICS ACADEMY PROVIDES PROFESSIONAL CERTIFIED ACADEMIC SUPPORT AT ALL LEVELS OF MATHEMATICS - 1 through 12

We provide:

- Certified mathematics teachers, members of the Ontario College of Teachers
- One-on-one instruction— each student has a dedicated instructor
- A clear explanation of all concepts
- Strategies to break down problems including word problems
- An explanation of the significance of the material being studied
- Study skills and test/exam taking skills
- Students with a new sense of self-confidence

WE HELP STUDENTS ALONG THE PATHWAY TO MASTERING MATHEMATICS
